

NewLeaf & Sun Drift

DRINK WELL. DO GOOD.

Introducing NewLeaf & Sun Drift, the better wine in a better, low carbon footprint container. Compared to old fashioned glass bottles our 1 Liter PET bottle:

Reduces greenhouse gases from transportation by 50%

Reduces packaging materials by 43%

Reduces energy use in production by 23%

Our bottles are also :

Bisphenol-A free (a chemical widely avoided by consumers due to health concerns)

The first PET bottle with a PET screw cap that is recycled along with the bottle

Require 15x fewer green house gases to produce than a glass bottle

Alternative packaging encompasses the fastest growing segments in the wine industry. The New Leaf/ Sun Drift bottle addresses the dual goals of consumers and retailers to be more environmentally friendly. New Leaf offers an exceptional wine with strong distributor and retailer margins. New Leaf is available for immediate shipment.
